This is an event you do not want to miss!

More details to follow.

Botox™ Booooooooooooo!

I have been using BOTOX™ for 10 years. I have used it for both softening and frowning muscles and for sweating! Unless I tell people that I am using it they would not know. A recent report in the news was trying to link Botox and deaths in patients with other severe medical problems. There is no direct link between Botox and major medical events. It is one of the most commonly prescribed medications in the world. The complications of Botox are carefully monitored by Allergan and reported to the FDA and Health Canada. In my own practice I have not seen any severe complication related to the use of Botox – I have one patient in 12 years who has a mild sensitivity and this resolved very quickly.

I continue to use Botox and believe that it is very safe, prevents lines and signs of aging and is a quick and easy way to help with sweating from the armpits.

Promotion

Freshen up for the Holidays –Purchase a series of Gentle Waves with Enzyme Mask, and get 10% off the series as well as 10% any of our skin care products, including our new Jane Iredale Makeup - Promotion available until December 15, 2008. What's New

Obagi Skin System - Do You Believe in Transformation? You will!

Aging and environmental assaults – such as too much sun, hormones, stress and pollution – affect not only the way your skin looks and feels, but also your skin's health. The Obagi Nu-Derm System is a physician-prescribed skin care system that actually corrects the functions and health of your skin. The System *transforms* your skin at the cellular level, resulting in skin that looks and *acts younger* and healthier.

Obagi is an easy to use skin care system for all skin types, used one time in the am and before you go to sleep.
