## Winter Special

**Buy one Clarisonic  
and receive the 2nd  
at 25% off.**

**The perfect  
Christmas gift.**

## Traveling South this Winter or just have the winter BLAHHHS?

Prepare and revitalize your skin with Gentle Waves™ plus enzyme mask (Gentle Waves Skin Fitness System) and protect your skin with Prescribed Solutions "Up the Anti or Lasting Results" Sunblock. Top this all up with our NEW Jane Iredale makeup which also has SPF protection.

Recover from your holiday and the beautiful sunshine with Gentle Waves Skin Fitness System. After soaking up the warm and caressing sunshine, you can reverse the skin damage with a simple Enzyme Mask and a 45 second treatment with the Gentle Waves Light System.

I recently traveled to Maui for my annual pilgrimage to Kite Surf and Wind Surf. I prepared my skin with the Gentle Waves Skin Fitness System™. I wore my sunblock every day and did not have a sunburn despite long hours on the water in the intense Pacific Sun.

## What's new in surgery????

### Breast Lifting and Contouring

You can use your own fat to add shape to your breasts.

Whether you want to lift the breast, increase breast size or just add some volume to the top of the breast or around your breast implants, Breast micro-fat grafting is giving fantastic results .

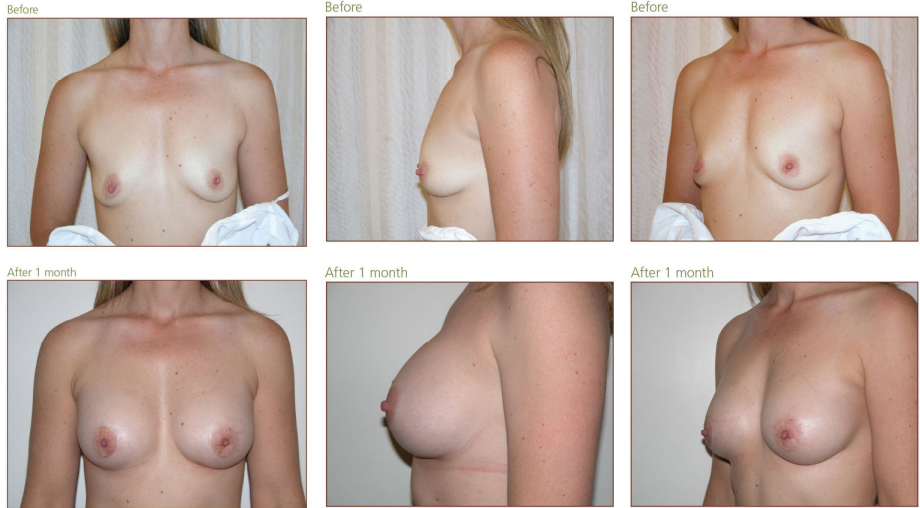

199 Avenue Road, Suite B  
Toronto, Ontario M5R 2J3

Tel: 416.921.7546

<http://www.drtrevorborn.com>

This procedure has 2 big advantages:

1. The extra fat you don't want is harvested for the grafting – just as is done with liposuction and
2. The shaping of your breast is done with your own tissue. The results are permanent. Occasionally a small amount of fat needs to be added.

**Special Winter Offer - \$ 806.75**  
**Savings of \$175.00**

For fast, easy removal of unsightly and unwanted hair we use only the best with proven results every time. The Profile™ Laser brings a new approach to laser hair removal.

The Profile laser selectively targets your hair follicles and heats them with infrared energy. Unlike other processes the laser beam treats many hairs at once, making treatment of large areas practical.

The infrared energy delivered by Profile can be used to remove all types of hair. Sometimes "shaving bumps" can cover a follicle, but the penetrating light of the Profile can still be safely used.

All skin types can use the Profile Laser Hair Removal Machine even if you have a tan, always let your physician know the last time you were tanning so any adjustments that need to be done will be done accordingly.
