For the months of July and August receive 25% off injectable fillers and \$11/unit of BOTOX® when booked with Tracy. When you book you will also be treated to a Free Gentle Waves Enzyme Mask Treatment.

**Call now to secure an appointment.**

## **Age proof your hands**

### **Hands are a giveaway to your age**

Just as we have great treatments for your facial skin- Fortunately there are ways to slow the age clock by treating your hands to some TLC- Anti aging strategies. Simple ways to help repair sun damage, boost collagen, diminish brown spots.

### **These are all things that can be done right here at Dr. Born's office.**

Radiesse which is a dermal filler adds volume to hands and stimulates your own collagen over time. This in turn hides the ugly veins and exposed tendons- your hands will look youthful for a long time with minimal downtime. This is a painless procedure done in the office with just a tiny amount of freezing. You can return to your normal activities right away!

Fat grafting another (and permanent) way of using your own fat to add volume to the hands making hands younger and smoother looking.

A great way for diminishing brown spots from the hand would be our IPL/Broadband Light machine from Sciton. This device targets the brown pigment spot and blotchy appearance of the hands. With 3-6 treatments your hands will have a more even skin color making your hands youthful looking.

### **Start today and you may never want to hide your hands again.**

## Introducing Tracy Sekulovski

Tracy Sekulovski delivers the highest quality of patient care based on her background as a registered nurse over the past 14 years and in Aesthetic services for over 3 years. She is licensed with the College of Nurses in Ontario and the Board of Nursing in the State of Michigan. Her expertise is a result of working in diverse and challenging specialties prior to training in Aesthetic Medicine.

Tracy has applied her skills to the aesthetic industry where she specializes in providing Aesthetic Medical treatments. She is certified by Dr Trevor Born she offers her patients expertise in aesthetic skin rejuvenation, Botox injections, injectable fillers such as Sculptra and Restylane, as well as Thermage (non-surgical skin tightening) procedures and advance skin care services.

Patients are loyal to Tracy because of her precise technique, gentle touch and breadth of knowledge and appreciate her commitment to high quality patient care.
